## **Submission Information**

- Each Nomination is limited to 3 pages (PLUS, a cover page with contact information), and should be submitted through the Reviewr platform. All documents should be submitted as PDF files. An Appendix and/or Supplemental information (maximum 10 pages) should be provided and must be appended to the 3-page Nomination, and sent as a single PDF file. The total PDF file should be no more than 14 pages (cover page, 3-page nomination, and 10-page appendix) and no more than 10MB.
- One exception is the NASDAQ Center for Entrepreneurial Excellence Award. The nomination can be up to 5 pages (plus cover page and 10-page appendix). The total page count maximum for the NASDAQ application with appendix is 16 pages and 10MB in size.

- Center Directors should submit nominations for the category that they believe best fits their Center's accomplishments. It is a Center Director's responsibility to evaluate the category that can best be articulated in terms of their Center's focus, achievements, and purpose. A university may apply for awards in multiple categories, if they believe they have strengths in multiple categories.
- Awards in each category will be made to the centers that demonstrate exceptional achievement within the category. There will NOT be a minimum or maximum number of awards in each category. It is at the judges' discretion.
- Awards will be announced and presented at the annual GCEC Conference (Oct. 18-20).
- A representative from each nominated university must be present to accept the award.
- Any award winning school will not be eligible the following year to submit for an award in the same category. (Moreover it is unlikely that a school would ever be considered to win the same category twice unless there are extenuating circumstances). In addition, winning schools may be asked to have a representative on the Award Judging Committee to evaluate nominations the following year.

### **Preparing the Nomination**

We want you to tell us what makes your center shine! The following guidelines are designed to facilitate a fair and simple basis for nominations, review, and award selections.

- Identify the specific category for which the center is nominated. Identify the center and institution names and contact information for the center director and for the individual submitting on behalf of the center. Unfortunately, if the category is not clearly identified, the nomination will not be considered.
- In all responses, please clearly indicate the center's role in highlighted activities, and/or specific relationship to the center of individuals, programs, or activities that are highlighted.
- Be sure to address each item in the nomination criteria, even if the answer is N/A. Once these specific items have been addressed, you may add information that you think is relevant, however it must clearly tie to the category in order to be considered. This should be done in no more than 3 pages!
- Appendix
  - o Many Award Categories have suggested or required appendix materials. The appendix is limited to 10 pages, including the suggested materials according to the Award Category.
  - o The appendix should be appended to the 3-page Nomination and submitted as a single PDF document, together with the 3-page nomination. The maximum combined file size is 10MB.
  - o If you choose to submit optional information in the appendix we recommend that you include examples of programs or initiatives or courses that visually capture what you have described in your 3-page nomination. You may include PDF's of marketing materials, fact sheets, collateral, brochures, PowerPoint files, flyers, testimonials, photographs, or other information that supports your nomination. Do NOT simply use the appendix to include additional text about your program.
  - o Also, when including supporting materials, please be sure to clearly indicate how the items relate specifically to the award category. In other words, please submit only those

that specifically tie to the category and criteria. Ad hoc materials that do not specifically tie to criteria requests will be excluded from evaluation, and will negatively impact the evaluation.
